Pressroom: **Selsey Press, Selsey, U.K.**

Date of the Installation: **June 2006**

PrePress

**CTP
Screen**

Printing plates

**Workflow
Trueflow with CIP3 option**

Pressroom

Network
connection

Press PC with *DIPS Converter*
Ink Preset Software and *Color*
Control Software.

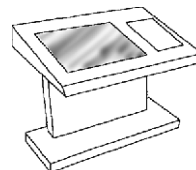

DIPS Converter reads CIP3/PPF
pre press files from Trueflow and
converts image area coverage
information.

Ink Preset Software calculates
ink preset values from image coverage
information for the Heidelberg SM 74 press.

Color Control Software enables
the closed-loop density control with
Techkon RS 400 scanning densitometer

Online connection
through DIPS interface
